Fire Chief Maurer
Clark County Fire District 6

Fire Chief Maurer,

Washington Surveying and Rating Bureau (WSRB) has completed its evaluation of the tender operations, as they relate to fire insurance rating, of your community. It is our pleasure to inform you that Clark County Fire District 6 will receive WSRB Tender Credit, effective immediately.

WSRB Tender Credit will apply to dwelling properties located within five road miles of a responding fire station but not having a standard fire hydrant within 1,000 feet. Dwellings in your community that meet these conditions will receive a Protection Class 5, which is an improvement from the previous Protection Class 7 or 8A that applied to these properties. Protection class ratings for individual properties are available by calling WSRB customer service at (206) 217-0101. We recommend residents of your community that have a dwelling that meets the above conditions contact their insurance agents to determine the relative effect this new protection class will have on their insurance premiums.

We wish to thank you and Assistant Chief Russel for the cooperation during the evaluation.

Please note that the WSRB survey was not conducted for property loss prevention or for life safety purposes. Rather, the purpose was to gather information needed to determine a fire insurance relevant Protection Class that may be used to develop fire insurance rates or Loss Costs. Our evaluation criteria incorporate many nationally recognized standards, such as those developed by NFPA, ICC and AWWA, and have been filed with and approved by the Washington State Office of the Insurance Commissioner.

If you have any questions, please let us know.

Sincerely,

Eric Cunningham
Fire Protection Analyst
